

**A ROOM FOR TWO:** A spacious Westhampton bathroom (above and left) gives homeowners his-and-her amenities, with a sink and cabinet space for each as well as a niche for the wife's vanity stool. An armoire (reflected in the mirror) displays a collection of perfume bottles and toiletries. Ria Gulian, ASID, introduced color with striped balloon window treatments layered over motorized blinds for easy access to light or privacy. Special features in the room include a custom seat in the large shower, a floor of honed limestone with a contrasting perimeter, and marble surrounding the tub. **Sources:** stone around tub and shower enclosure, Artistic Tile in Shrewsbury; mirror and etched-glass shower door, Galaxy Glass & Stone in Fairfield; countertop, flooring, valance fabrication and motorizing of shades, CMI in Springfield; fabric, Kravet in Bethpage, New York; custom stool, Emerson et Cie in High Point, North Carolina; armoire, Woodland Furniture in Idaho Falls, Idaho; tub and sink, American Standard.
